Technical Skills

- Eight years worth of Linux experience.

- Strong background in SQL databases.

- Functional knowledge of Mac OSX and its BSD ancestor.

- Experience with a variety of programming and scripting languages. In the context of Graphics, this is useful for gathering statistics/data and automating repetitive processes.

- Strong background in web application development (primarily with Python). See my website for a full list of languages and competencies.

Work Experience

- **International Paper**
  Clemson Office (Spring 2007 to Present)
  Interned in the Spring of 2007 in a pre-press and software development role. Earned Intern of the Year honors for 2007. After graduation, I accepted a full-time position with the same office as a software developer. My work is focused on our in-house Django workflow management software, which I co-authored.

- **Level 11 Solutions**
  (Spring 2007 to present)
  I am the owner of Level 11 Solutions, a small startup consulting and software development company aimed at the graphics industry. Our flagship product, Color Sentry, is nearing release and will assist press operators in recording and reporting color accuracy.

- **Clemson Geographic Information Science**
  Clemson University, Forestry Department (Spring 2006 to 2007)
  Working with a small group of engineers, I wrote software, assembled hardware, and deployed Linux-based remote sensor networks under Dr. Christopher Post of the Forestry Department.

- **Systems Support**
  Clemson University, Cooper Library (2005-2006 School year).
  I worked the computer help desk and assisted with maintaining library computers, software, and images under Richard Kyle.

Clubs and Organizations

- **Clemson Linux User Group**
  I was the CLUG secretary for two years, working to coordinate events, maintain the server (clemsonlinux.org), advertise, and assist members with technical questions.

- **Marching Band/Pep Band**
  I'm a previous member of Tiger Band (three years on the Mellophone) and played Trumpet in the Basketball Pep Band.

- **Clemson Crew**
  Currently coaching with the men and women's varsity squads. As a student, I served primarily as a Coxswain. Competed for and earned a spot in one of our boats that participated in the 2008 Head of the Charles Regatta, the largest Fall race in the country. Served as the team webmaster during the 2008-2009 season.

Education

- Graduated from Clemson University with a B.S. In Graphic Communications.

- Recipient of the Elsie Bissel Award for Research in Graphic Communications (Spring 2008).

- My recent research paper, *Color Error Threshold Calculator*, appeared in the TAGA trade publication (April 2008).

- LIFE Scholarship Recipient.

- Previously majored in Computer Science (two and a half years).

- I have developed several utilities for use within Clemson Graphic Communications. For example, the web-based Intern Employer Day registration system and a Color Error Threshold Calculator.

Additional Information

Should you wish to view a more complete, verbose overview of my skill set, education, and the projects I have been involved with, please see my website at http://gc-taylor.com. I am also easily reached via email or cell phone.
